FASA SHOW RULES 2019

For a show is to proceed smoothly, the close co-operation of the Show Management, Exhibitors, Judges and the Veterinary Surgeons is required. The Rules have been drafted to outline the responsibilities of each of these groups as clearly as possible.

The welfare and the comfort of the cats must always receive the highest priority.

If any matter arises which is not covered by the rules, it should be settled at the time by the FASA Representative in co-operation with the Show Management and, if necessary, a FASA judge.

Rules are constantly being updated.
If in doubt, check the **FASA website**: www.felineassociationsa.com

Or contact the **FASA Secretary**

 **Rules in this book are effective as at the date of publication

E JUDGING

Exhibitors with mobile phones are asked to switch them off or onto silent mode when in the vicinity of judging.

1. It is recommended that all judges and stewards have up to date tetanus shots.
2. Judging will commence as near as possible to the time advertised. If the show is 'closed', the show hall will be cleared of all persons other than the judges, Stewards and other show and club officials helping with the show.
3. Judges will as far as possible handle cats in the general order requested by the show management and return their slips to the ticket table as soon as each section is completed.
4. Challenges and awards may be withheld from any exhibit that, in the opinion of the judge, does not possess sufficient merit. The judge's decision is final.
5. Exhibits found to have any powder or colouring matter shall be disqualified.

Duty of Care - The show committee reserves the right not to accept any entry for competition that is deemed in the opinion of the show committee or a judge to be aggressive.

6. **Fractious (FRAC):** Where a cat is stressed but does not scratch or bite anyone. The cat can be handled, but not comfortably. If it happens in the first ring, the next judge is to be advised and the decision to judge or not left with him/her. However, the steward must record this by completing a FASA Incident Report. Three (3) recorded offences will mean the cat must be rested for three (3) calendar months. If a cat is rested and then re-offends once, it will not be permitted to be shown again.
7. **Unable to be judged (UTJ):** the cat is unable to be taken from the cage. It is not to be judged in any other ring that day and the steward must record this by completing a FASA Incident Report. It may be entered in the next show, but if this occurs again, at that or subsequent shows, then the cat is to be rested for three (3) calendar months. If a cat is rested and then re-offends once, it will not be permitted to be shown again.
8. **Unable to be handled (UTH):** deliberate biting or attacking of a judge, steward or veterinarian. No further judging or showing of this cat will take place. The steward must record this by completing a FASA Incident Report. The cat will be banned from showing for life. CCCA and GCCFSA will be notified of this decision in writing by the FASA secretary. The owner must be notified in writing and no appeal will be considered. This is for reasons of insurance as well as the cat's welfare.

*If a cat has offended in more than one of the above situations it will be treated as individual Incidents and the cat will not be rested until it has offended under one heading for the specified amount of offences. E.g. a cat has 1 Fractious and 1 UTJ Incident; it **will not** be rested until it either has 2 more Fractious **or** 1 more UTJ incident recorded.*

9. If a judge considers that an exhibit has been incorrectly entered in the wrong class, it may be reclassified after consultation with two (2) other appropriately qualified judges, and the show manager notified.
10. **PROTESTS:** Protests by exhibitors will only be entertained in regard to the eligibility of a cat to compete in a particular class and must be made at the show and settled on the spot by the Show Manager and FASA Representative/s, and the judge if necessary.
11. The judge has the power to disqualify any exhibit which does not meet the requirements of the show rules in any way but will consult with the FASA Representative/s and another judge before taking such action, and notify the show management of any decision.

FASA SHOW RULES 2019

JUNIOR EXHIBITOR

- The aim of this class is to encourage the next generation of FASA exhibitors to develop an interest in showing cats and to foster a culture of responsible cat ownership and care.
 - This class must be scheduled at all FASA and affiliated shows.
 - Entry to this class does not attract an entry fee.
 - These rules apply equally to pedigree and companion cat exhibits
1. Junior Exhibitors shall be over the age of eight years and under sixteen at the start of the show season.
 2. A Junior Exhibitor will only enter one cat/kitten in each show into this class.
 3. During a show season, the JE does not have to show the same cat/kitten.
 4. The cat/kitten does not have to be registered in the name of the JE but the JE would normally live in the same household and be responsible for the care of the cat/kitten.
 5. The JE will be present for vetting in and for the remainder of the show. The vetting in slip will endorse the JE status of the entry and should be collected by the JE.
 6. A Junior Exhibitor will be under direct supervision by a parent/ other adult family member or designated guardian at all times during the show.
 7. The JE is not to present their cat/kitten to the veterinarian or the judge; this must be done by a responsible adult as designated above or a FASA steward.
 8. The JE may set up the cage, groom the cat and settle it in the cage at the beginning of a show and do any necessary cleaning during the show if supervised by an adult as specified above.
 9. The JE is expected to be the primary carer of the cat/kitten at a show.
 10. The exhibit must be entered into its designated class as well as the JE class.
 11. All exhibits in the JE class will normally be judged together. The judge will be assessing the exhibit for temperament, presentation, health and cleanliness. The judge may ask the JE some basic questions about their cat.
 12. This class will be judged in each ring of the show but not necessarily by the Challenge judge.
 13. First second and third places will be awarded, and the allocated points accumulate for the End of Year Awards.
 14. If any of these Rules appear to have been breached the Show Manager shall be informed and take the appropriate action.

Guide to judges for Junior Exhibitor Class

Thank you for agreeing to judge this class today.

This is an important part of our show today as it encourages the next generation of exhibitors and cat owners.

A copy of the relevant section of the Show Rules is attached.

We hope that you will find this rewarding and fun to judge.

Exhibits are assessed on temperament, personality, cleanliness, health and presentation not type. Pedigreed cats and companion cats compete on an equal basis.

Points are awarded for places and these accumulate towards an end of year award.

These exhibits are cared for at home and at the show by their exhibitor and you may and are encouraged to ask questions about this.

If the cat is pedigree you could ask general questions about the breed.

If a companion cat you can ask how the cat came to be living with him/her.

The JE is expected to remain in the vicinity of the show hall and must be available during judging for the duration of the show so you can ask your steward to have the JE accompany you whilst you are judging their cat. This can be very interesting for the JE.

If you have any questions about judging this call please ask your steward or the Show Manager.
